

Greensboro Participatory Budgeting Event Calendar: October - November 2015

This is a living document. Dates, times, and locations are subject to change.

Outlined by the 2015 - 2016 Steering Committee, the goal of the Greensboro Participatory Budgeting process is to achieve equity, empowerment, community building, and transparency. Each district will have two formal neighborhood assemblies, in addition to at least three informal outreach events that leverage community partnerships and Greensboro's diverse landscape to encourage widespread participation. Neighborhood assemblies will include formal presentations, information about the City of Greensboro, and idea collection.
